THREE-CARD METHOD

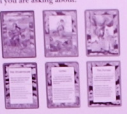

I. How to Arrange the Three Stacks of Cupid Cards

To use the thirty-six *Little Reminders* for a three-card reading, place the three color-coded stacks of cards facing each other with the images facing each other. Each stack is identified by the border of color up. Each stack is identified by the border of color up. The image on the card's other side, and the image on the card's other side, are known as the AMETHYST, RUBY, and TURQUOISE decks.

The three decks must be arranged in this order with the images facing you right side up: AMETHYST on the LEFT, RUBY in the MIDDLE, TURQUOISE on the RIGHT.

It is easy to remember the order in which to arrange the three stacks. Just remember the **ART** of love (A R T = Amethyst - Ruby - Turquoise).

Pick up the Amethyst deck on the left, close your eyes, and take a deep, luxurious breath. As you do this, visualize in your mind's eye the relationship situation you are asking about.

II. How to Phrase Your Question

There are two basic ways to phrase your question. They are:

How can I bring love into my life?
and
How can I make my relationship better?

There are also several variations on these two questions:

1. How can I find my soul mate?
2. How should I be with my love interest in order to accomplish my goal?
3. How should I respond to the idea of a relationship with this person at this time?
4. What do I need to work on to improve my chance of having a love relationship?
5. What are the main issues that are keeping me from meeting my soul mate?
6. Can (or should) my relationship be saved?
